

The New Senior Secondary Curriculum for Sierra Leone

Subject syllabus for Everyday Basic French

Subject stream: Languages and Literatures

This subject syllabus is based on the National Curriculum Framework for Senior Secondary Education. It was prepared by national curriculum specialists and subject experts.

Curriculum elements for Everyday Basic French – an everyday subject

Subject Description

The concept of Everyday French is to provide an opportunity for pupils not studying French as a core subject, including those who are not in the languages and literatures stream, to learn the French that they would need to get by in a French speaking environment (make acquaintances, talk about oneself, shop, travel, understand directions and instructions etc.). They would also acquire basic knowledge of distinctive features of French and Francophone cultural systems and demystify the act of learning a new language thereby building positive attitudes towards French speaking peoples. The everyday French they learn may also help them to work with texts in French that relate to their various disciplines (ex. engineering, economics etc.)

General Syllabus Objectives

To enable the pupil to:

- listen and understand different registers of French
- perform simple acts of communication in French such as asking questions, giving commands, making requests, expressing emotions, counting and calculating
- communicate with clarity and confidence in French
- acquire insights into, understanding and appreciation of critical aspects of French and Francophone African culture and civilization
- discover the joys of learning languages
- strengthen his/her personal and intellectual development and social skills

Assessment Objectives

The pupil will be expected to:

- understand and respond to spoken French
- communicate freely in French on typical, everyday situations
- Understand and utilize basic aspects of French Grammar
- understand and respond to audio and video content in French such as video, audio messages, announcements
- manipulate French accurately in spoken and written forms

Outline Structure of the Syllabus Over the Three Year Senior Secondary Cycle
